I am a skilled Software Engineer with 4 years of professional experience building online assets, collaboration with both designers and developers to deliver high-quality solutions that meet user needs regardless of stack. I am adaptable, constantly learning, and committed to improving my skills with excellent communication and problem-solving abilities, I am a dedicated team player who strives for project success.

EXPERIENCE

Manakightdigital, (Ontario, Canada) Remote— *Frontend Developer*

October 2023 – PRESENT

> Offered technical expertise and support to team members, assisting with troubleshooting, code optimization, and knowledge sharing. Helped foster a collaborative and supportive team environment.

> Designed and implemented a user-friendly T-shirt design tool, allowing customers to create custom designs with ease. This involved integrating canvas elements for real-time preview and manipulation of designs.

> Played a crucial role in the successful delivery of client projects by meeting project deadlines, exceeding client expectations, and delivering high-quality solutions that aligned with business objectives.

> Communicated effectively with team members and stakeholders, providing updates, gathering requirements, and soliciting feedback throughout the development lifecycle. Fostered a collaborative and positive working environment conducive to creativity and innovation.

Tools/Technologies – Javascript, Typescript, React,, Git, HTML/CSS, Tailwind, Shopify, Trello

Erossphere, (Lagos, Nigeria) Part time— *Fullstack Developer*

August 2024 – April 2025

> Designed and developed a robust subscription-based platform enabling content creators to engage with subscribers, similar to Fansly and OnlyFans, using **Node.js**, **React.js**, and **Redis**.

> Implemented **live video streaming** functionality, enhancing user engagement and real-time interaction between creators and subscribers.

> Built an **automated messaging system** using **Cron jobs** to deliver scheduled updates and notifications to subscribers, improving retention and user experience.

> Optimized backend performance and caching with **Redis**, ensuring scalability to handle high-traffic workflows.

> Collaborated with cross-functional teams to integrate payment systems, tipping features, and user authentication modules.

> Maintained clean, modular codebases and conducted regular testing to ensure seamless deployment and minimal downtime.

Tools/Technologies – Javascript,, React, Cron Jobs, RESTful APIs, WebSockets (for live streaming)

LANGUAGE/SKILLS

Javascript, HTML/CSS, CSS-in-JS, TypeScript, SASS,

CORE TECHNOLOGIES

React, React Native, NextJS, Material UI, Tailwind, VueJS, Webpack, Redux, Github, Node JS, ExpressJS, Websocket,

PRODUCTIVITY

Slack, Trello, Notion

OTHERS

Testing, Communication, Team Integration, Empathy, Collaboration, Open-mindedness, Critical thinking, Professionalism, Problem solving, Adaptability, Accountability and many more.

Student Corner, (Lagos, Nigeria)— *Backend Developer*

March 2023 – Aug 2023

> Developed and maintained backend systems for a platform providing academic, social, and financial solutions tailored to university undergraduates.
> Designed and implemented RESTful APIs to support seamless integration of features like resource management, student support tools, and payment processing.
> Optimized server-side performance to handle growing user demands, ensuring reliability and efficiency for student-focused services.
> Collaborated with frontend developers to deliver a cohesive user experience, leveraging **Node.js** for backend logic and API development.

Tools/Technologies – Javascript, Node js,

Thebrik, (Lagos, Nigeria), Remote— *Full Stack Developer*

April 2022 – Jan 2023

> Began as a **Frontend Developer**, designing and implementing responsive user interfaces for a hostel rental platform targeting university students, using **React.js**.
> Transitioned to a **Backend Developer** role after completing a Node.js internship, expanding responsibilities to include server-side development and API integration.
> Developed and maintained features enabling students to browse, book, and pay for hostels online, improving accessibility and user satisfaction.
> Collaborated with team members to ensure seamless frontend-backend integration, leveraging RESTful APIs and optimizing application performance.

HNG, Remote— *Frontend Developer Intern*

September 2021 – November 2021

> Worked closely with the team to translate design mock-ups into elegant and fast responsive web applications.
> Received mentorship from senior developers while consistently implementing their feedback.
> Collaborate closely with Product, Design and fellow engineers to develop and iterate on the responsive site experience.

Tools/Technologies – Javascript, React, Git, HTML/CSS

EDUCATION

Lagos State University, Lagos— *B.sc Accounting*

2019 – 2023

- Member and contributor for the GDSC LASU community.
